9 May 1961

25X1

2. Jim Garrison advised me that there will be a showing of our training film on printing and reproduction at 1430 hours on 29 May. I told him that I would try to attend.

25X1

3. Jim reviewed with me an incident in which, at the urgent request of a TSD employee, the [redacted] shipped certain TSD items via air express in direct violation of ICC Regulations and which the airlines would not have accepted had the items in question been properly identified. I agreed with Jim that both the contractor and TSD should be told very firmly that this must never happen again.

25X1

4. Jim also advised me that PBS will probably not furnish the ten-man labor force which they have on duty for us at all times when we move to the new building. He believes as I do that the present group is highly inefficient and that we can furnish our own laborers at less cost.

25X1

5. [redacted] has recommended that the responsibility for patents now exercised by the Board chaired by [redacted] be transferred to the Office of Personnel, along with the Suggestion Awards Program. I approved this and I am meeting with John and several others to make final decisions as to the procedures to be followed in disposal of the Management Staff.
